SUMMARY

Frontend Developer with hands-on experience building responsive and user-friendly web interfaces using HTML, CSS, and JavaScript. Currently participating in an AI career program for women by Edunet Foundation in collaboration with Microsoft & SAP, gaining practical exposure to AI/ML technologies. Also in the learning phase of React.js and Figma (UI/UX), with a keen interest in modern frontend development.

SKILLS

Frontend & Design:	HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Figma (UI/UX)
AI/ML & Databases:	AI/ML Fundamentals, TensorFlow, Python, FastAPI, MongoDB
Tools & Strengths:	Git & GitHub, Web Optimization, Problem Solving, Time Management

EXPERIENCE & PROGRAMS

Frontend Developer Intern - Proglan Futuretech Pvt. Ltd	Short-term Internship
- Developed responsive and user-friendly web pages using HTML, CSS and JavaScript. - Gained hands-on UI/UX design experience in Figma. - Collaborated closely with design and backend teams to implement frontend features.	
AI Career Program Participant - Edunet Foundation (Microsoft & SAP)	AI Career Program
- Enrolled as a student participant in a specialized program focused on empowering women in tech. - Gaining hands-on exposure to AI/ML concepts, tools and career pathways through Microsoft and SAP aligned curriculum. - Developed practical knowledge of Artificial Intelligence and its real-world applications.	

PROJECTS

AURA AI Fashion Analyzer	Next.js, FastAPI, TensorFlow
Developed a full-stack AI-powered fashion analyzer that classifies outfit styles and suggests curated products through Myntra and Ajio links.	
SkillTrack Learning Management System (LMS)	Next.js, MongoDB, Serverless APIs
Built a modern learning management system featuring user authentication, course progress tracking, course management, and dynamic certificate generation.	
StellaSpace — Space Decor E-Commerce	HTML5, CSS3, JavaScript
Built a fully responsive cosmic e-commerce website with animated starfield, live product search, category filters, shopping cart and wishlist system.	
Event Website Design	Figma UI/UX, Wireframes
Designed a high-fidelity UI/UX prototype for an event management system in Figma, including design systems, custom components, and clickable wireframes.	

EDUCATION

Bachelor of Technology in Information Technology - Silver Oak University

2022 - 2026

- Cumulative Grade Point Average (CGPA): **8.53**
- Final Semester Project-based Work: Secured a perfect **10 SPI**
- Relevant Coursework: Software Engineering, Web Technologies, Database Management Systems (DBMS)
